PROFILE

A Software Engineering graduate from SMK Assalaam Bandung with experience in administrative support and data management. Brings internship experience in data entry and computer-readiness checks, school-organization collaboration, and hands-on support for a food business from distribution to customer service.

EXPERIENCE

Technical Support Intern

UIN Sunan Gunung Djati Bandung (PTIPD) | Sep 2025 - Nov 2025

- Collaborated on an inventory and room-management system to support campus facility monitoring.
- Handled accurate data entry, new-student account creation, and division activity documentation.
- Performed computer-lab checks, ICT-based exam technical support, and exam documentation.
- Coordinated office-equipment logistics with the general affairs team to support daily operations.

Sales and Distribution Staff

Cake and Bread Business | Aug 2026 - Present

- Sold and distributed cakes and bread through a booth and consignment to canteens at five schools.
- Managed delivery schedules to help ensure products arrived on time.
- Recorded capital, expenses, and income regularly to monitor profitability.
- Provided direct customer service and maintained product quality.

Head of Health and Environment Division

Student Council, SMK Assalaam Bandung | Jul 2023 - Aug 2025

- Planned division programs, prepared budgets, and coordinated activity delivery.
- Assigned team responsibilities and organized schedules for the school health unit, library, and student-council room.
- Coordinated cross-division collaboration for school events and supported first-aid response for students.

EDUCATION

SMK Assalaam Bandung - Software Engineering (RPL)

Jul 2023 - May 2026

- Industry Class program with PT Dwi Purwa Teknologi.
- Competency Exam project: designed HealTrack, a health app with schedule management and medication reminders.
- P5 community project: supported Quran learning, maintained worship facilities, and engaged with local residents.
